ASTRODESIGN, Inc.

8K Theater Grand Opening at Yukigaya-Otsuka Headquarters

For everyone involved in video production, make 8K content production more familiar

ASTRODESIGN, Inc. (Head office: Tokyo, President: Shigeaki Suzuki) has officially opened our 8K theater (supports 8K 3D, 8K 120Hz video, 22.2ch audio).

8K Theater

8K Editing Room

8K Showroom

ASTRODESIGN, Inc. has been developing 8K visual equipment since 2000 and in recent years has focused on proposing a "total 8K workflow" from shooting to display. From June 2018, we began an "8K rental program" as part of our 8K content production support. We now rent 8K equipment and 8K editing room and have opened our 8K theater to the public aiming at the further spread of 8K. By doing so, we hope to have set up an environment where anyone can feel free to create 8K content. Our system makes video production that much easier with the ability to immediately check your content on the big screen while still editing. The theater is also open for demonstrations and previews for clients, screenings and more. All facilities require a reservation so you can be sure to have the place, and the equipment, to yourself.

■Location

1-5-2 Minami-Yukigaya, Ota-ku, Tokyo

ASTRODESIGN, Inc. Head office 2F

■Permanent Equipment

8K Theater
