The JPEG XS IP Gateway grants visually lossless image quality with low latency up to 8K resolution.

We will be presenting a comparison of uncompressed and compressed videos with this solution.

8K LIVE Workflow

8K Video Transmission

Shooting 8K video with the pocket-sized 8K camera head, AB-4830, with the CCU, AC-4829. Real-time 8K video will be displayed on the 31" 8K monitor and conversion from 12G-SDI to IP will be demonstrated with the JPEG XS Gateway.

Next Generation Test Measurement

Showcasing three new products. The first is the AM-3825 audio monitor, which monitors and converts the audio of 12G-SDI signals. Second is the Universal Video Platform LS-8500 which offers the protocol signal analysis and generate functions of HDMI 2.1 and 12G-SDI. The last is the portable HDMI 2.1 tester, Universal Video Tester LC-8600.
