

IBC2024 13-16 SEPT 2024
RAI:AMSTERDAM Stand 9.A11

Live Up to Your Potential

We are thrilled to be back at the RAI for IBC 2024. Specializing in real-time high-speed digital signal processing technology, we aim to help you unleash your potential.

Live-Production Assistant

Transform/Optimize your live production operation with AI and the Cloud

**Realtime ROI Extractor
IP-4042**

Cutout 4× simultaneous and totally independent 1920×1080 live camera feeds from 8K source. Virtual camera movements can be controlled live, programmed, and/or automated.

**Portable SRT Transmitter
TR-5004**

Move your entire live production chain to the Cloud. TR-5004 bridges the divide between your camera and cloud-based production with return video, tally, and intercom support.

Immersive Tech

With our 8K×8K square sensor camera, you can instantly create VR programmes without complex post-production.

**8K×8K Square sensor camera
AB-4838**

Filling the Gap

Interfaces and converters to supplement your total workflow.

**12G SDI Audio Monitors
AM-3825(Dante)/AM-3829(ST 2110)**

**12G SDI ↔ HDMI2.1 Converter
IA-1567**

**HDMI2.1→4×HDMI2.0 Converter
SD-7077**
